

Green Practices in MVJCE Campus

MVJCE has implemented green-friendly practices to manage the available resources and has taken steps in environmental conservation and protection.

Established in 1982, MVJ College of Engineering, the flagship of Venkatesha Education Society, imparts education beyond engineering and management. Situated on a 15-acre campus in Whitefield, Bangalore, MVJCE has state-of-the-art infrastructure, creating an environment for progressive learning and development. 40 percent of campus is covered by herbs, shrubs and trees. There are more than 700 plant species and 800 trees were audited. Management is focusing on maintaining a green campus and improving it by appointing gardeners in the campus.

MVJCE NSS volunteers are actively involved in various pollution awareness programmes in and around the college and help in maintaining a green campus. It encourages college students to care about the treatment of trees and shrubs as well as environmental issues within their campus community. Different plantation programs are happening in college to create environment consciousness amongst students. This makes us to prove that planting trees and shrubs can improve the aesthetics of the landscape. This activity had created some awareness amongst MVJCE fraternity to maintain eco-friendly atmosphere on the campus.

Bicycles in Campus : MVJCE students and staffs who are staying in near the college are using bicycle for transportation for reducing both pollution and fuel usage.

Public Transport: Most of the MVJCE students and faculties are availing BMTC buses. College provides bus facilities to the faculty members, non-teaching staff and students.

Pedestrian Friendly Roads: Pedestrian Friendly roads in MVJCE is enabling pedestrians and cyclists to travel safely and freely in the campus. Installation of speed *humps* in the campus road is done to improve the traffic and pedestrian safety .

Plastic free campus: MVJCE is a plastic free campus. MVJCE has organized programs to create awareness on harmful effects of plastic free zone.

Briefing the NSS Volunteers regarding the Programme

Paperless office: The college gives emphasis on paperless office to save carbon footprint due to printers. Reuse of one –side paper printouts is also being done. Most of the work is paperless as college has been utilizing CERP software.

Green landscaping with trees and plants: Carbon dioxide neutrality is maintained on the campus by planting different varieties of trees and plants. The green campus concept offers MVJCE to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of the mankind.

Major Green Campus Initiatives

1. Green audit of the institute is conducted annually.
2. Tree Plantation is done every year through NSS.
3. Recycled water is utilized for maintaining green campus.
4. Rain water harvesting and solid waste management.
5. The college has nurtured number of trees of different variety.
6. MVJCE ECO Club with a tag line “GO GREEN FOR TOMORROW”.
