Feedback (CHOOSE THE RELEVANT COLUMN)

Do you feel proud to be associated with MVJCE as an Alumni?

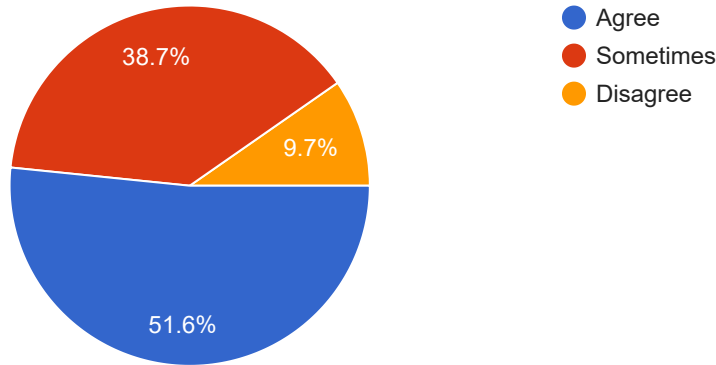

31 responses

Institute organizes various kind of Alumni activities for overall development of students.

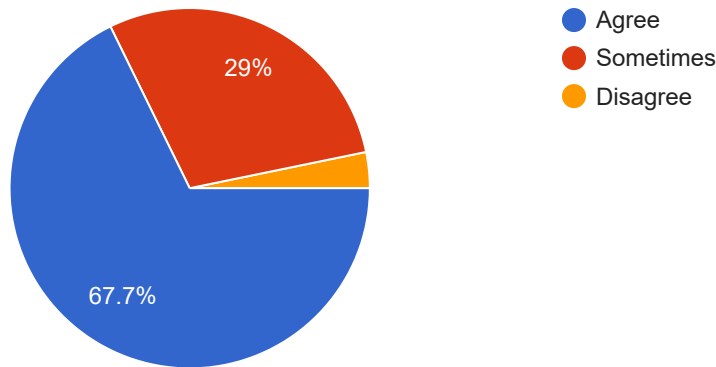

31 responses

Are you willing to contribute in the development of the Institute?

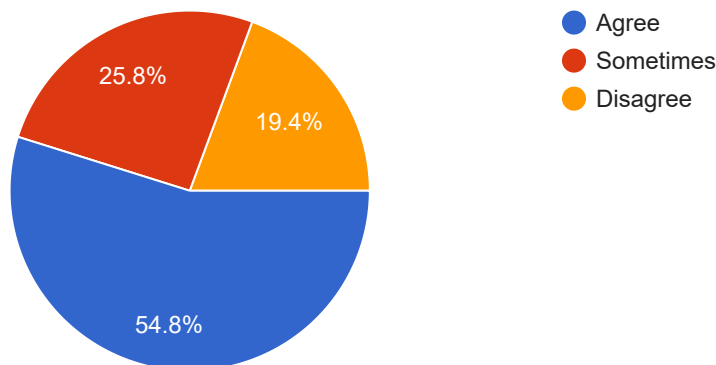

31 responses

Is education imparted at MVJCE is useful and relevant in your present job?

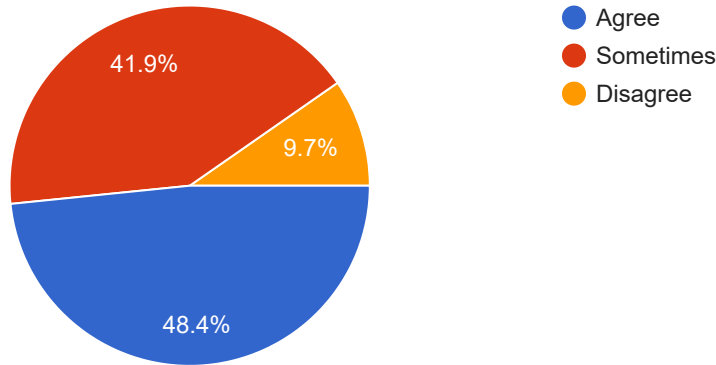

31 responses

Have you obtained sufficient technical knowledge (both in theory and practical) at MVJCE?

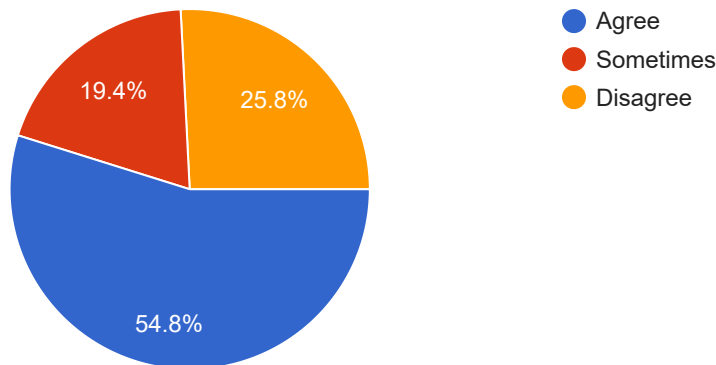

31 responses

Has the Placement Cell provided ample OnCampus and Off Campus placement opportunities?

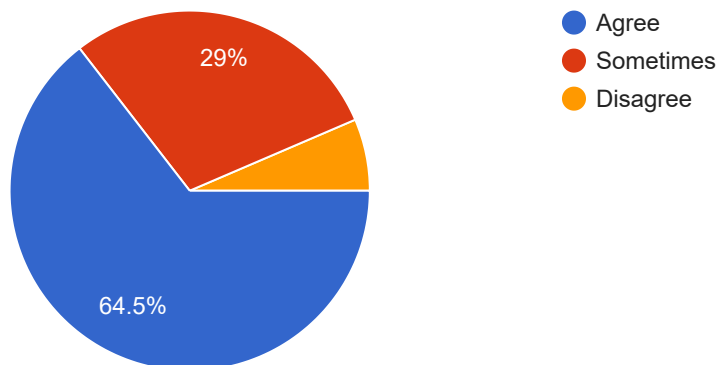

31 responses

Do you like to join the Institute Alumni Association?

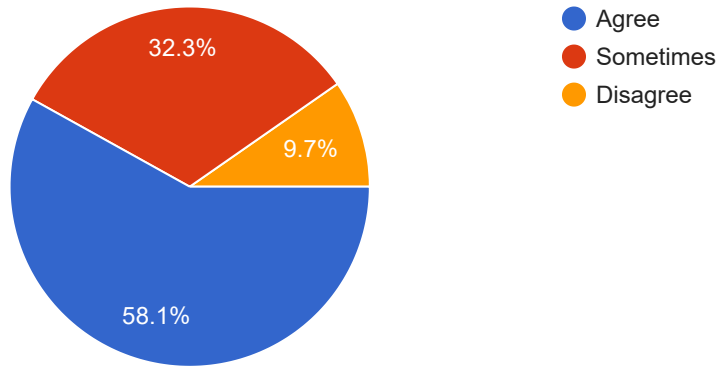

31 responses

Is Institute providing good hospitality as Alumni after passing out?

Most Memorable moment in the Institute:

31 responses

Fest

NA

Industrial visit

Vertex

College Functions

1st day at my class and hostel

Getting placed

Cultural fest.

Classes

Hostel Life

Overall best experience

Swayam

N

A lot

Bunking sessions !

Spending time in canteen

Healthy environment

Cultural event

To receive first prize for voice controlled robot

Technical fests

Working in labs and projects

Nothing

Vertex fest

Taking part in Vertex,college's technical fest

IEEE students chapter

Everyday in college was full of memories

Being a part of the Dance club and also Vice President of the Dance club has been very memorable

First Day at College

It's on the swayam

.

Suggestion for improvements:(Department)

31 responses

NA

Nothing

No

Hands on experience for all the theoretical knowledge / industrial visit

Lab timings

Better labs

No suggestions

No improvement required everything is alright

-

Would be good if focus more on practical knowledge

I dont know

Placements can be organised better.

Need more practical knowledge

Education is good but need to provide info about offcampus as well.

Activity based learning

Career guidance mentoring

More focus on practical experience and extra curricular activities

Update about company in prior during placements

Need to focus more on placements (core companies,)

None

Technical talk

Opportunities of interaction between junior and senior year college mates must be provided for exchange of ideas and experiences.

Everything is good

.

Suggestion for improvements:(Institute)

31 responses

Nothing

NA

No

None

Software industrial visits will be helpful for the students

College timings

More placements

Need more core companies placement

Everything fine

-

Who will listen

Need to call better companies who are willing to hire in bulk rather than giving employment to cream.

Nil

Activity based learning

Extra curricular activities

More focus in practical experience and freedom to work in projects and extra curricular activities

Have some courtesy , I'm totally upset regarding account section they behave very rudely with parents , they collect fines for everything , they are not helping students , feeling bad to be the student of mvjce

Placements need to be Improved

Technical talk

Organize regular extra curricular and club activities which involves student interaction so that they become more confident and help them eliminate the stage fear within themselves, improve their public speaking skills and overall personality.

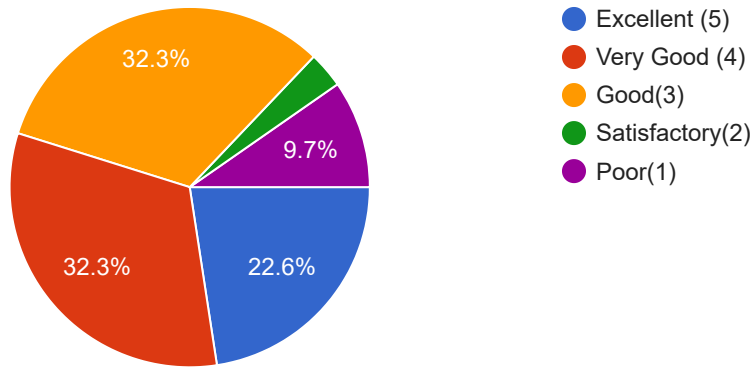

Everything is ok

Graduate Attributes Evaluation

PO1: Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

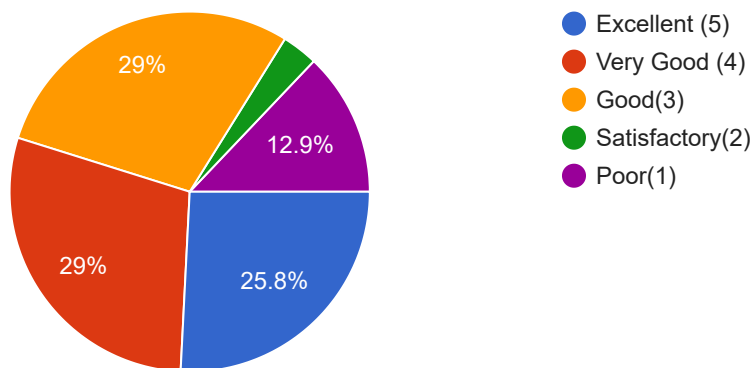

31 responses

PO2: Problem analysis: Identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

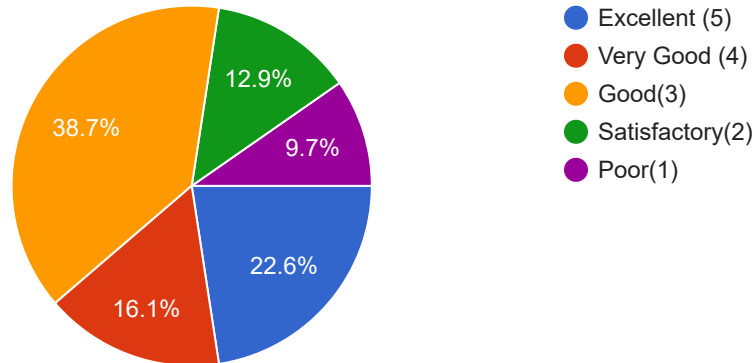

31 responses

P03: Design / development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

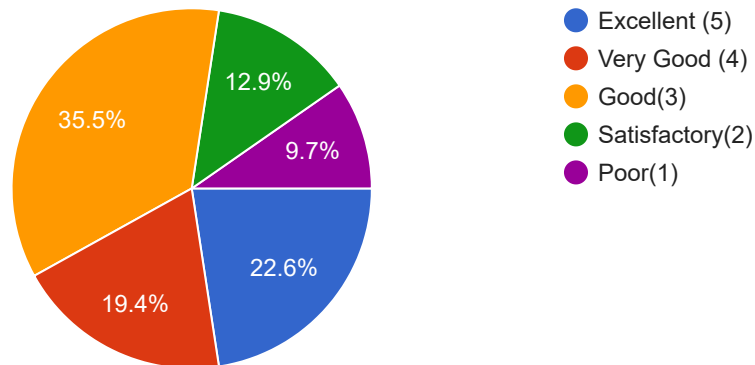

31 responses

P04: Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

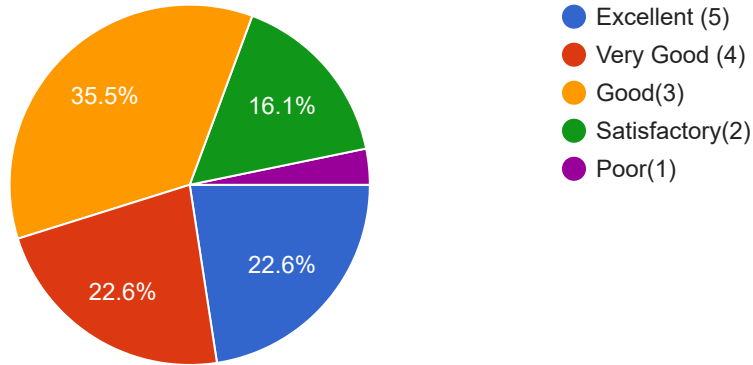

31 responses

P05: Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

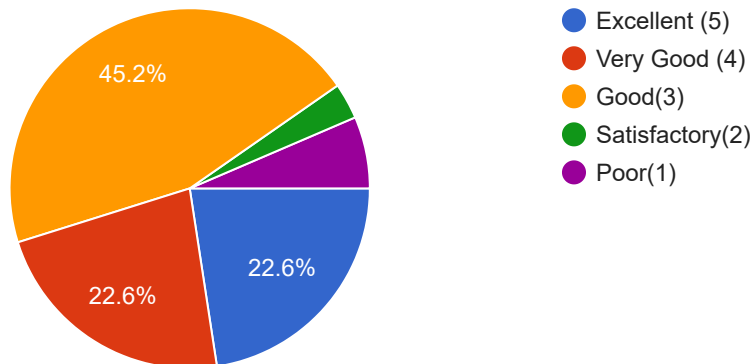

31 responses

P06: The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

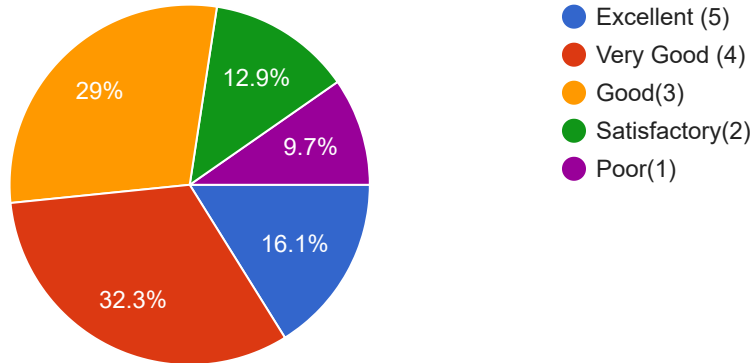

31 responses

P07:Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

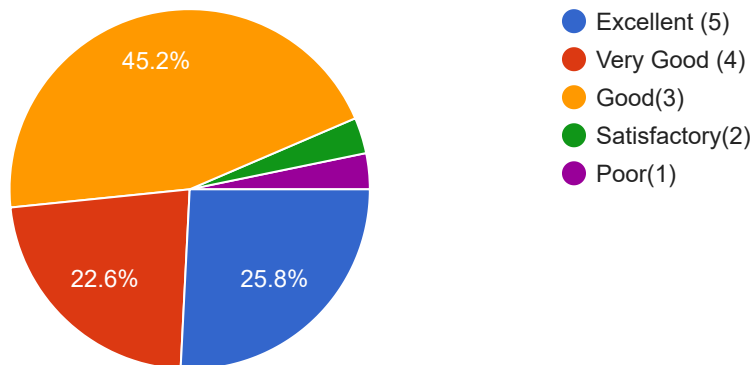

31 responses

P08: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

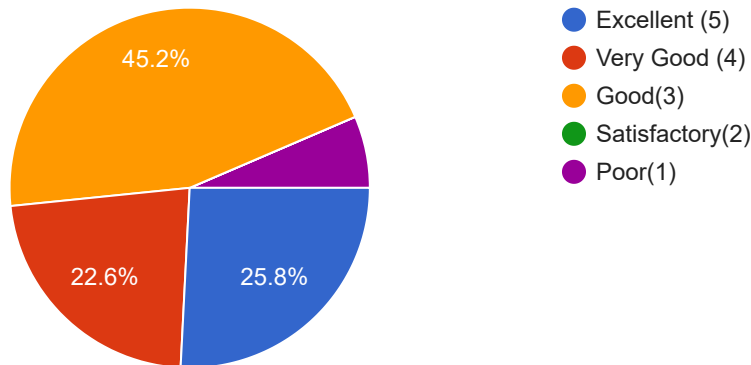

31 responses

P09:Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

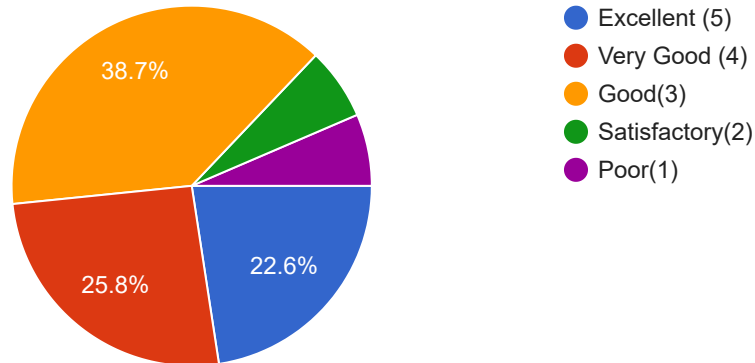

31 responses

P010. Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

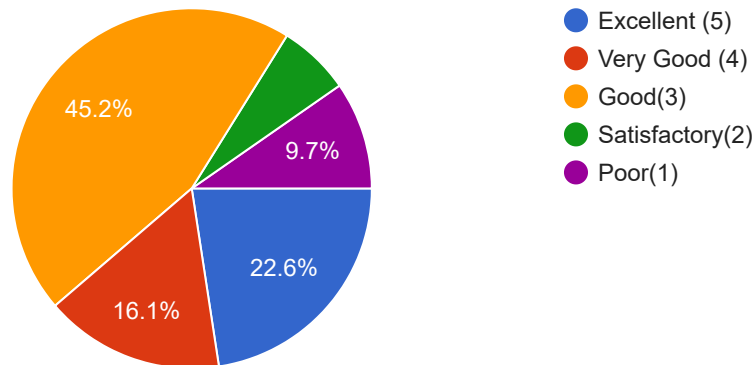

31 responses

P011. Project Management and Finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

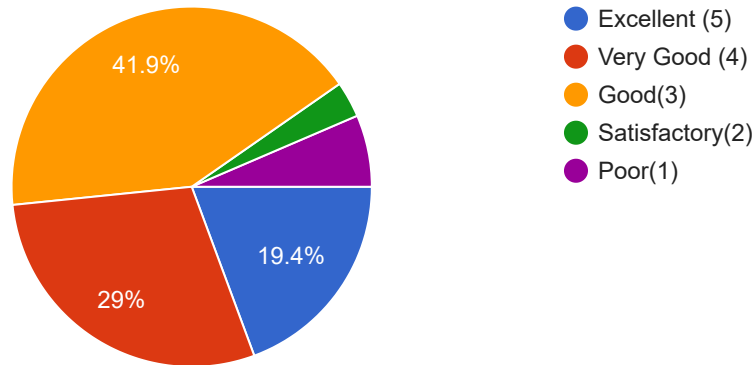

31 responses

P012. Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change

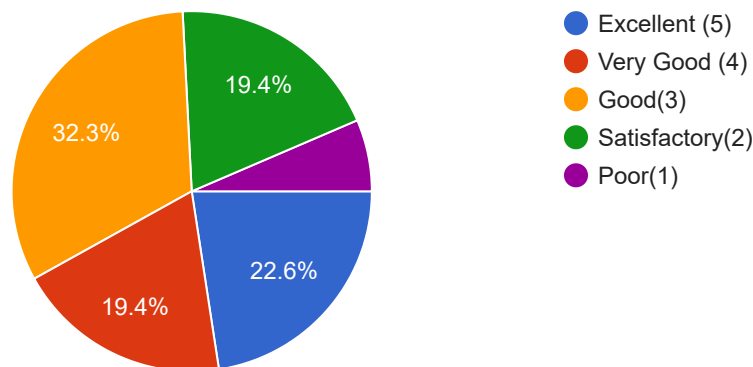

31 responses

PSO1: Interpretation skills: Design, Verify and Validate Electronic functional elements for a variety of applications with skills to interpret and communicate results.

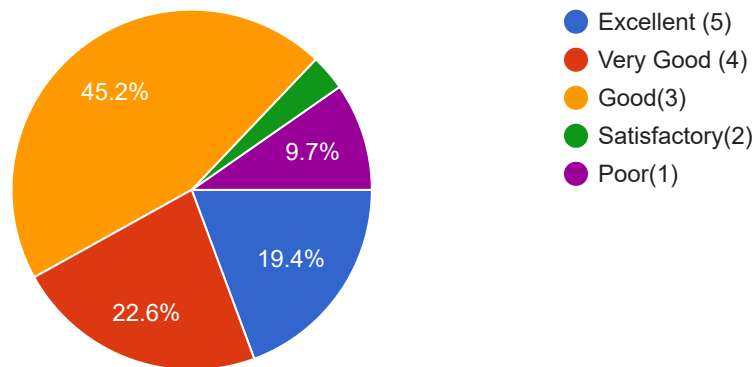

31 responses

PSO2: Core Competency: Analysis, Design and implementation of VLSI systems, Communication systems and embedded systems.
