Such as Kapal Bhati, Pranayayam, Surya namaskar, etc. Yoga helps us to live a healthy life in a natural way. If we practice yoga properly and regularly, we can get rid of the use of artificial things to stay healthy. Such as medicines and other drugs. Yoga is not only a physical exercise where you twist, turn, stretch, and breathes in the most complex ways, this will definitely keep the human mind and soul strong and most healthy. It leads to the healthy development of mind, body and soul by mastering certain yoga postures or asanas with breathing techniques. Pranayama needs special mention. It is the simplest form of yoga which is done before any asana. It teaches you how you can do wonders to your body by gaining control over your breath. The best time to practice yoga is early morning and it can be practiced in the evening too. Some asanas are time-bound such as Surya namaskar (sun salutation). It benefits the most when done in the morning in front of the Sun. In short, Yoga has so many benefits that it has become famous around the world.
