

Report on Visit to Govt School

MVJ college of Engineering had taken an initiative to be part of Swachh Bharat Abhiyan programme by Govt of India. NSS and Eco Club of the college jointly had organized a one day visit to Khajisonenahalli government school on October 4th 2017. The activity was headed by Prof. Muralidhara.R, NSS program officer along with a team of 30 volunteers keenly participated. NSS Volunteers along with school children cleaned the school campus and planted about 20 saplings that included Banyan, Mango and Couscous. Simultaneously few volunteers involved the remaining school children in various soft skill training programs that encourage their creative skills in making greeting cards, poster making and basic English vocabulary through rhymes and puzzles. All the children showed great enthusiasm and participated actively, making the program a success. It was a nice experience for everyone especially for the newly joined NSS volunteers. We like to express our gratitude to the College management, Principal and Vice Principal for the support for the successful conduction of the program.
